

IN THE ABSTRACT OF THE DISCLOSURE

Please utilize the Abstract of the Disclosure, which is a part of the accompanying "Substitute Specification" and provided on a separate sheet thereof, as required by 37 C.F.R. §1.72, for the Abstract required by the Examiner as part of the first Office Action. Both a "clean copy" and a "marked-up" copy of the Substitute Specification are enclosed, and both copies of the Substitute Specification include the new Abstract.

ABSTRACT OF THE DISCLOSURE

A method for recording into a memory of a cardiac event recorder, in which the memory of the cardiac event recorder includes a manual trigger memory and an auto-trigger memory, with the auto-trigger memory being partitioned into a plurality of auto-trigger recording partitions, the method includes the steps of continuously recording signals, in the event of a manual trigger, acquired from the manual trigger or the auto-trigger in the manual trigger memory, and copying the signals acquired from the auto-trigger from the manual trigger memory to a partition of the auto-trigger memory.
